ABSTRACT

This guide contains indexed lists of study opportunities in South African universities that relate to occupations that might be open to persons with various degrees, diplomas or certificates. In the first of two sections in the guide, opportunities for study and employment related to "first qualifications" are listed as follows: index of fields of study for which study opportunities are available; particular degree programs by field of study; index of occupations available to those with first qualifications; index of institutions offering programs of study. The second section of the guide concerns "advanced qualifications" and arranges entries as follows: field of study for which advanced degrees are available; actual degree programs at particular institutions; index of institutions offering advanced degrees. For both sections the descriptions of actual degree programs at particular institutions list the name of the institution, the language medium (English or Afrikaans), the duration of the program, the entry qualifications, subjects required, the admissions criteria; and the application deadline; the descriptions in the first section also list the possible occupations for those completing the program. An appendix provides the addresses of institutions mentioned in the guide. (JB)

EKSERP

Hierdie gids is 'n samevatting van studiegeleenthede aan universiteite en die moontlike beroepe wat persone met grade, diplomas of sertifikate kan volg. Die inskrywings is geïndekseer onder die opskrifte: studierigting vir die graad, diploma of sertifikaat, naam van van die graad, diploma of sertifikaat, waar die studiegeleentheid beskikbaar is, taalmedium van aanbieding, duur van studie, toetreekwalifikasie(s) vereis, vakke vereis en aanbeveel, keuringsbasis, aansoeksperdatum en moontlike beroepe. Die gids bevat ook 'n alfabetiese lys van studierigtings waarvoor studiegeleenthede beskikbaar is, die moontlike beroepe wat gevolg kan word, die universiteite wat die studiegeleenthede aanbied en 'n adreslys van universiteite.

Die ongeveer 2000 inskrywings is saamgestel hoofsaaklik uit die nuutste beskikbare brosjures van al die universiteite in die RSA en TBVC-lande. Die gids is 'n nuttige hulpmiddel vir voorligters en 'n naslaanwerk vir alle skoliere en studente wat inligting oor studiegeleenthede en moontlike beroepe wil bekom. Die gids sal elke twee jaar hersien word.

ABSTRACT

This guide is a summary of study opportunities at universities and possible occupations that can be pursued by persons with degrees, diplomas or certificates. Study opportunities are indexed under the headings: field of study for the degree/diploma/certificate, name of degree/diploma or certificate, where the study opportunity is available, language medium of institution, duration of study, entry qualification(s) and subjects required, subjects recommended, selection basis, deadline for application and possible occupation(s). The guide also contains alphabetical lists of the fields of study for which study opportunities exist, the possible occupations that can be pursued by persons with degrees, diplomas and certificates , the universities listed in the guide and an address list of the universities.

There are approximately 2000 entries in the guide which were mainly obtained from the latest available brochures of all the universities in the RSA and TBVC countries. The guide will be of use to pupils, students and counsellors seeking information on study opportunities and occupations.

HOW TO USE THIS GUIDE

This guide contains an indexed list of study opportunities at universities and possible occupations that can be pursued by persons with degrees, diplomas and certificates. Study opportunities appear under the heading "Study opportunities" and are alphabetically classified according to the field of study for the degree, diploma or certificate.

The following suggestions will help you to find information on the study opportunities.

•• Degrees, diplomas and certificates are usually offered in a specific field of study and the index of fields of study is a useful aid for tracing the study opportunities. Look for the field of study in which you are interested and consult the numbers thereunder in order to locate the study opportunities

Also look under related fields of study. For example: for study opportunities under "Chemistry" ,one can also look under "Pure Natural Sciences" and for "Civil Engineering" under "Engineering".

•• Use the index of occupations to trace the appropriate degree, diploma or certificate under "Study opportunities".

•• Use the index of institutions where study opportunities are available to trace degrees, diplomas and certificates that are offered at a specific university.

•• Apply for enrolment in good time. The application form has to be obtained, completed and submitted before a closing date. Enrolment dates are determined annually.

•• In this guide

correspondence means that the degree, diploma or certificate can be obtained by means of correspondence. If the word correspondence does not appear in the entry, it means that classes have to be attended.

application deadline means the latest official date applications can be accepted. Late entries are usually accepted only if an additional fee is paid.

Afrikaans medium or English medium means the language in which the course is presented.

occupations means the possible occupations that can be followed by persons who have obtained the qualification. Up to five occupations are mentioned and many more occupations can usually be followed by persons with a specific degree, diploma or certificate. (Occupations with the same work content are also known under different names to various employers).

admission qualification means the minimum educational qualification that is needed to enrol for a degree, diploma or certificate. Universities sometimes permit candidates to enrol without the prescribed qualifications. Write to the university for further information.

Although the information in this publication has been compiled carefully, some of the study opportunities may no longer exist. Applicants, when applying, should thus ascertain whether the study opportunity is still available. There may also be new degrees, diplomas or certificates which the HSRC is still processing, details of which do not appear in this publication.

Thanks are due to all bodies which co-operated in providing information. Particular appreciation is expressed to the universities which made information available and co-operated in updating the information.
